

Crosby

PhotoMe!

About

Crosby PhotoMe is an innovative but simple application allowing anyone to take a picture with their mobile phone and send it directly to a website we provide. The image appears on the site just as if you had taken it with a digital camera and uploaded it yourself.

The site can be open or closed to the public, meaning it can be public facing or simple a private website.

How does it work?

1. User takes a picture with their mobile phone as they would do normally.
2. Once taken they are presented with options by the phone, they choose e-mail address, sending it to an e-mail address as advertised.
3. Picture arrives on the website for the operator to see.

Costs

Setup Fee: £599 - including up-to three hours site design to suit your business needs.

Monthly-On-going Cost: £25.00 monthly rental

EXTRAS

Add Video - £399. Allows submission of video clips to the website which play when clicked.

NB: All costs +VAT

Benefits

- User can easily submit photographs on the move from wherever they are using their mobile – no camera required.
- Costs the person sending the photo a small GPRS data charge (normally around 6p).
- No premium text messaging needed or subscription costs.
- Submissions automatically organized and displayed to the web with no action required by your staff.
- Add an interactive visual element to your website – encourage customers to regularly revisit your site.
